Town Council.

Two More Building Permits Applied for.

Held on Thursday, April 27th. Present—Mayor Robertson, Councillors Cotton, Reid, Stevenson, Smith and Brown, and Solicitor Brown.

The following accounts were read: Bow Island Review..... 5.40
J. Smith, labor..... 1.50
J. Davis, labor..... 4.00
L. Carpenter, work on Fire Hall..... 1.80
E. L. Christie, rubber stamp..... .50
Pioneer Lumber Co., lumber for sidewalks..... 303.80
Bow Island Mercantile Co..... 21.25
A. E. Werts, oats..... 14.10

The accounts were ordered paid if found correct.

An application was received from H. S. Beattie on behalf of Dr. Munroe, permission to erect a two-story building on Main Street, next the Dentist's garage.

The application was granted subject to the usual conditions.

Permission was also granted R. G. Jamieson to build an office on lot 1, block 11, Lethbridge Avenue.

The financial statement of the town for the year 1915 was submitted to the Council and the same was ordered to be published in The Bow Island Review.

The matter of collecting rental from the property that had reverted to the town then arose, and it was moved that the secretary-treasurer collect rent due from all properties held by the town, also that all tenants paying rents to the town on forfeited property be notified that rents must be paid in advance.

An application was received to rent the west end of the Hoaglin building, and the Council agreed to this and decided to charge \$15 per month for use of same.

The secretary was authorized to purchase from the government a copy of the Ordinances and Statutes of the province.

After discussion of sundry other unimportant matters, the Council adjourned.

Smelter for the Hat.

The negotiations which have been in progress for some time relative to the sale of the Redcliff Rolling Mills, culminated yesterday in the purchase of that plant by the Western Canadian Steel Co. The price to be paid will be fixed by arbitration.

The Redcliff Rolling Mills is controlled by Medicine Hat capital and is the most modern plant of its kind in Canada.

Individual members of the purchasing corporation are largely interested in the Western Canadian Foundry and Supply Company, which was recently merged with the International Supply Company and other manufacturing plants of the west and are also concerned with the establishment in Western Canada of the zinc smelter, the location of which Medicine Hat has been seeking.

It is generally conceded that the acquisition of the Redcliff Rolling Mills will mean the establishment of the smelter at a point between Medicine Hat and Redcliff. Medicine Hat News.

No Dividend This Year.

The Canadian Western Natural Gas, Heat, Light and Power company will not pay its regular half-yearly dividend this spring.

At a meeting held recently at Toronto it was decided by the directors to "pass" the dividend for the time being owing to the falling off in the consumption of gas at Calgary and other centres in Alberta. The company has hitherto been paying an annual dividend of 2 per cent. on its common stock.

Big Fire at Medicine Hat.

The large mill and elevator of the Lake of the Woods Milling Co. was completely destroyed by a mysterious fire which broke out at three o'clock on Saturday morning last. The whole plant is a complete loss, along with thousands of bushels of grain and thousands of pounds of flour and bran. The origin of the blaze is unknown and up to the present no plausible solution as to the cause has been made known.

Figures issued by the Lake of the Woods officials give the amount of grain destroyed as follows:—wheat, 50,000 bushels; oats, 10,000 bushels; barley, 3,000 bushels. The value of the lost flour, bags, etc., is given at \$100,000.

It is understood that work to clean up the wreckage will be started immediately and that twenty-five members of the 17th Regt. will be given employment in helping with the work. The mill just destroyed was erected in 1901 by the Medicine Hat Milling Co. and was sold a couple of years ago to the Lake of the Woods Milling Co. for \$750,000.

Changes in Town and Village Act.

The Village Act gives not less than 10 per cent. of the number of voters at the annual municipal election the opportunity of submitting to the council a by-law to adopt a system of taxation for a period not exceeding 4 years, from the date of its coming into force. The by-law shall be submitted to the vote of the electors at the next annual municipal election if not passed by the council within 60 days without alteration or amendment, in which case the petition must be filed with the secretary not later than September 1.

Power is also given the village council for a period not exceeding four years, from December 31st, 1916, by by-law passed by a majority at a regular meeting held prior to June 1st in each year to provide for the levying of a business tax on all persons carrying on any trade, business or profession, but it is provided that trade, business or profession licenses under the Act shall not be liable. The assessment shall be upon the basis of the rural value of the premises used or occupied.

Villages are also given power, subject to the approval of the minister, of compromising for payment of arrears of taxes on lands which have been subdivided.

The Town Act, in addition to containing the sections providing for the empowring of areas and for taxation of buildings and improvements as in the Village Act, confers power for the levying of estimate and machine used for the sale of gum, matches or other articles.

Seed Barley.

District News

Burdett.

Mr. and Mrs. Gen. Lomas and family moved to Lethbridge and Diamond City last week end.

Mr. Kinkham has received the appointment of Lieutenant in the Legion of Frontiersmen.

W. J. Maxwell has been called to Saskatchewan by the sudden death of his daughter.

Birth—On Friday, April 26th, to Mr. and Mrs. Bishop, a son.

J. E. Campbell and family leave on Wednesday for Illinois and the Central States.

W. Mason has purchased a Ford from R. B. Beattie of Bow Island.

Mrs. Mallet has returned from Rochester, Minn., where she underwent an operation for the removal of her right arm.

Gusky & Sons of Ogema, Sask., have arrived here and opened up a first-class blacksmith shop.

The Provincial Government have got out here this week grading the roads in the vicinity of the town. Geo. Lomas has been appointed official bread reader.

A. K. Percy has joined the Legion of Frontiersmen.

Mr. and Mrs. G. H. Johnston moved to Bow Island on Sunday and attended service at St. James' Church. Mrs. Johnston presiding at the organ.

The famous round Burdett are making strenuous efforts this time and many of them have already got a huge acreage ready for crop. Tom Hulse has 100 acres, Campbell Bros., south of town, have 500 acres, H. W. Anderson 30 acres, and Clarence Wunsdale 500 acres.

Windy Ridge.

Mr. Hamon of Grande has purchased a Blue over Ford of R. B. Beattie. Mr. and Mrs. Jesse Preskey, Mrs. and Miss Boles, R. E. Ham, M. Balke, and Ten Nowak spent Easter Sunday at the Lamoureux home.

Mrs. H. Nordan was a Windy Ridge visitor last Saturday.

Mr. and Mrs. Clarence Henschel were callers at Bob Couquergue's Easter Sunday.

O. G. Vibert took a load of grain to Winnipeg last Saturday.

Has Bob Howard stopped hauling grain, Borden?

J. Nowak, Mrs. J. Lamoureux, Paul Gleditsch and A. Murray visited at Bob Howard's Sunday.

"Some dance at Haycroft? If you don't believe it just ask the people that got there about eleven o'clock."

Mrs. Jesse Preskey visited Mrs. and Miss Boles last Thursday.

A. Gleditsch was thru the Windy Ridge district Wednesday looking for a stony horse.

N. Billiam Williams is reported to be on the sick list.

Mr. Paul Salisbury is preparing to begin his duties on his homestead about next week.

Fertile Plains.

The farmers feel in a much better frame of mind after the recent refreshing rains.

It is quite dangerous travelling between Jas. N. Gibson's place, for there are now two new chaffcutters experimenting on the road.

Mr. Tweedie and family were visitors at the home of Mr. and Mrs. M. J. Brown on Sunday last.

Whispering cough is raging through out the district.

The Ladies' Circle met recently at the home of Mrs. Jas. N. Gibson. Quite a number were present, all of whom spent a very enjoyable time. The Circle decided to have the next meeting at the home of Mrs. J. H. Hing.

Mr. Gibson and family were visitors in town on Tuesday last.

It is reported that wedding bells will be ringing soon.

Job printing at the Review office receives prompt attention.

Sunnyvale.

The Farmers' Union meets at G. Thomas' every two weeks. The next meeting will be Saturday evening, May 11th, at 8 p.m. sharp. This is to be a social gathering and we want every member present, as important business is before the house. Bring your wife and family, also your lunch basket and music box. Those who are not yet members come and join with us and make this a Union worth while.

Mr. A. Plamme entertained the W.A. Wednesday, April 24th. A very pleasant time was spent by the ladies. The next meeting will be at the church, Wednesday, May 10th.

John Lay, Jr., has returned from the hospital and is progressing favorably.

We regret to chronicle the illness of Mr. R. Dolio.

Chas. Pradergast had the misfortune to lose several stacks of cut shavings by fire while burning stumps.

Master Orville Hands is staying with Mrs. Hushworth and attending school at Bow Island.

Miss Stokley of Borden attended Teachers' Institute at Edmonton the week following Easter.

Pat says he would rather drive a Ford & Wood blind than ride in a Ford when the other fellow is at the wheel.

Presentation.

A very delightful little ceremony took place on Wednesday, April 23rd, at the residence of Mr. T. B. Hulse, when Mr. J. Hushworth was presented with a wrist watch and an address, as a token of the respect and esteem with which he is held in the district. There was a large number present, and after the presentation a very enjoyable time was spent with cards and music.

Mr. J. R. Murphy presented the watch and the address was read by Mr. T. B. Hulse. Mr. J. Hushworth acknowledged in a few well chosen words.

The address reads as follows:—

We, whose names are appended herewith, desire to take this opportunity of expressing to you feelings, in which regret and pride are intermingled, and in which regret has its place. We are truly sorry to lose you from this district, as a man, a neighbor and a friend. We have known you as one upon whom we could always depend, and the joy which you and your good wife will leave will not easily be filled. Always a friend and supporter of a good cause, you are now determined to fight in the interest of justice and right, and in behalf of our great Empire, which we believe has ever embodied those two great principles. And so, if we are sorry, we are also proud that you should go forth from our little community upon this great adventure. In giving you this little gift, we ask you to accept it as a token of real friendship and regard, and we pray God that you may be brought safely home, when the terrible business of war shall have released you.

JUDICIAL SALE.

TO HUBLEY B. DAVIS, ESQUIRE.

TAKE NOTICE that an action has been commenced in the Supreme Court of Alberta, Judicial District of Lethbridge, on the 1st day of March, 1916, by the Imperial Life Assurance Co. of Canada, against you to recover the sum of Twelve hundred and ninety-four dollars and fifty cents (\$1294.50) together with interest on the sum of eight per centum per annum from the first day of December 1915, due under a Mortgage bearing date the 1st day of December 1912, covering the South West quarter of Section Twelve (12), Township Nine (9), Range Ten (10), West of the Fourth Meridian, and for other relief.

AND TAKE NOTICE that unless you enter a Demand of Notice or Statement of Defence with the Clerk of the Supreme Court of Alberta, at the City of Lethbridge, on or before the 15th day of May, A.D. 1916, the Plaintiff may proceed in said action in default of your appearance and without further notice to you.

Dated at Lethbridge, Alberta, this 15th day of April, A.D. 1916.

C. H. HARRIS, JUDGE.

MATTHEW R. DAVISON, Solicitor for the Plaintiff, Lethbridge, Alberta.

Union Sunday school is held in the Presbyterian church every Sunday at 11 a.m. All school children service at 1:30 p.m. Chas. Bishop, pastor.

LEARN TO PLAY PIANO OR ORGAN In a Few Hours.

A Detroit musician has invented a wonderful system which enables any person or child to find in 10 days the piano or organ in an hour or two.

Write your name and address on a small card or on a letter, and send it to your guide, and three sheets of notes absolutely free of charge.

Address: Musical Method Music Co., 3011 Truist Concrete Building, Detroit, Mich.

Production and Thrift

"GAIN or no gain the cause before the farmers of Canada is as clear as it was last year—they must produce abundantly in order to meet the demands that have been made, and I believe this to be a true and a just struggle."—HON. MARTIN BURRELL, Minister of Agriculture.

THE FOLLOWING STATEMENTS ARE BASED ON REPORTS CONTAINED IN "THE AGRICULTURAL WAR BOOK, 1916." PUBLISHED BY THE DEPARTMENT OF AGRICULTURE, OTTAWA, ONT.

LIVE STOCK—The herds and flocks of Europe have been greatly reduced. When the war is over there will be a great demand for breeding stock. Canadian farmers should keep this in mind.

MEATS—In 1915 Great Britain imported 664,506 tons of beef, mutton and lamb, of which 564,240 tons came from without the Empire. Out of 430,430 tons of hog only 104,967 tons came from within the Empire.

The demands of the Allies for frozen beef, canned beef, bacon and hams will increase rapidly this year. Orders are coming to Canada. The decreasing tonnage space available will give Canada an advantage if we have the supplies.

DAIRYING—Home consumption of milk, butter and cheese has increased of late years. The war demands for cheese have been unlimited. The Canadian cheese exports from Montreal in 1916 were nearly \$5,000,000 over 1914. Prices at Montreal—Cheese: January 1915, 16½ to 17 cents; January 1916, 18½ to 19½ cents. Butter: January 1915, 24 to 25½ cents; January 1916, 32 to 33 cents.

EGGS—Canada produced \$30,000,000 worth of eggs in 1915 and helped out Great Britain in the shortage. Shippers as well as producers have a duty and an opportunity in holding a place in that market.

WRITE TO THE DOMINION DEPARTMENT OF AGRICULTURE AND TO YOUR PROVINCIAL DEPARTMENT FOR BULLETINS ON THESE SUBJECTS

Tens of thousands of Canada's food producers have enlisted and gone to the front. It is only fair to them that their home work shall be kept up as far as possible. The Empire needs all the food that we can produce in 1916.

AT THE STRAND. Africaner Minstrels.

The Africaner Minstrels entertain a large audience last night at the Strand Theatre, and judging from the applause they received, their songs, dances and monologues were duly appreciated. The first part of the show was of the usual minstrel variety including songs and dances and end men's patter and was scarcely up to the standard of the second part, or else, which depicted a typical southern scene of negro life. In this sketch in the nine chorography they showed of the type, and as well as being superior to the ordinary minstrel show, it was a very good one.

The performance in two parts, the first being the form of a minstrel show, the latter being a vaudeville sketch of southern dances and songs. All have good voices and in the darkest moments will be to the audience. There is no trace of stoniness in

their work, the show being one that will please the children as well as the grown-ups.—Herald News, March 25, 1916.

ROYAL. Greatest Attraction Ever Shown Here.

Every show on the Royal yesterday was crowded with large and delighted audiences who thoroughly enjoyed the magnificent performance of Reese Bros. Africaner Company of 16 talented artists. The word "Africaner" used adverbially, as every man and woman who participated in the laughable musical comedy is a star in his or her line. The jokes were new. The chief lady dancer was as light on her feet as a butterfly. The orchestra and band were composed of an all-star aggregation. This excellent company is booked for a tour of the West Coast Review, January 18, 1916.

The Most Modest of Men
Abraham Lincoln felt deeply the responsibility that rested on him as president of the United States, but he shrank from assuming any of the honors, even the titles of his position.

After years of intimate acquaintance, public men testified eloquently after Mr. Lincoln's death that he could not recall a single instance in which he spoke of himself as president, or used that title for himself, except he acted in an official capacity.

He always spoke of his position as office variously, as this place, here, or there, or under such and such a speaking of the room at the Capitol used by the president of the United States at the close of a session of congress, he said: "That room, I know, that the Congress of the United States and hesitating the president's room."

To an intimate friend who addressed him always by his proper title, he said: "Now call me Lincoln, and I promise not to be so of course if you want to. I shall have a resting spell from Mr. President."

All persons agree that the most remarkable characteristic of Mr. Lincoln's manners was his simplicity and plainness, but his simplicity never forsook him, and with all his angularities and disregard of conventionalities, distinguished foreigners were invariably impressed by his directness.

A diplomat, whose knowledge of courts was more than that of the English language, said:
"He seems to me one grand gentleman in disguise."

When Holloway's Corn Cure is applied to a corn or wart it kills the roots and the callosities come out without injury to the skin.

Along in the sixties that Casey pulled a wheelbarrow across the plains from St. Joseph, Mo., to Georgetown, Colo. shortly after that he struck it rich; in fact he was credited with having made more money than anyone else in Colorado. A man of great drive and energy, he was exceedingly sensitive over his inability to read or write. One day an old timer met him with:

"How are you getting along?"
"Go away from me," was said patently, the boss' answer was "well." "I take two lead pencils with me to do my writing."

Minard's Liniment Cures Diphtheria

An English physician, being annoyed by the talk of a pedantic, self-called bore until he could stand it no longer, remarked: "My friend, you and I know all that there is to be known. How is that asked the bore, high praise?"

"Why, said the doctor, you know everything except that you are a fool, and I know that."

Overturn

The Irish Intruder—Look here, you have been in here half an hour and never said a word.

The man L., the telephone booth is speaking to my wife, sir.

There is one odd thing about children. What's that?

When their parents find that they are bright, they send them to college to get foolish.

Why don't you join in cleaning up our fair city?

What's the use? The suburbanites will track mud right into their own backyards.

A Sweet, Crisp, Delicious

"Bite-To-Eat" Post Toasties

Building Good Roads in Michigan

Here is the way that the State of Michigan got good roads: In one day 15,000 automobiles, made of solid steel, having volunteered for the purpose of building 400 miles of good roads passing through forty-four townships. This means is open to any community which can develop the right kind of public spirit.

New Ride Tested

King George was an interested spectator at a number of trials with new service rifle slightly longer than the standard one. He was so impressed as an additional feature and aperture sight. The King then saw a firing squad at work with the new rifle 500 yards. The targets were a foot square, made of solid steel, three-quarters of an inch thick. One of them had been hit by a bullet, as shown to the King and Queen. It had four bullet holes in it, perforated as if the metal had been punched out with a machine gun.

The new service rifle was being used by the British Regiment, which had been drawn from the same cavalry as were picked men from the British Army, and were armed with the new rifle at twenty-four targets. Each man had twenty rounds, and when their ammunition was exhausted all but one of the targets had been hit.

Post Toasties are sold by grocers everywhere.

Canadian Foodstuffs Corp., Ltd., Windsor, Ont.

W. N. W.

For the Earache
I am afraid boys were interfered with my own practice, said a celebrated aurist, by giving the following advice to many of my friends: At the first symptoms of earache, let the patient lie on the bed with the patient's ear uppermost. Fold a thick towel so as to make a pad, and place it with a teaspoon full of ear wax warm water. Continue doing this for fifteen or twenty minutes, the water will fill the ear cavity and flow over the head. The water runs out, and the ear is filled with warm water and the ear is relieved. The water is changed every hour until relief is obtained. It is an almost infallible cure and has cured many cases of acute inflammation. The water should be quite warm, but not too hot.

NERVOUS TROUBLES ON THE INCREASE

They Are Due to an Impervised Condition of the Blood

Nervous exhaustion or neurasthenia, as medical men call it, is one of the greatest evils of the present day. It is a condition of the blood, and is caused by a variety of causes, such as overwork, mental strain, or disease. It is a condition of the blood, and is caused by a variety of causes, such as overwork, mental strain, or disease. It is a condition of the blood, and is caused by a variety of causes, such as overwork, mental strain, or disease.

The true treatment for this trouble must be a general one. It is not a matter of the blood, but of the whole system. It is a condition of the blood, and is caused by a variety of causes, such as overwork, mental strain, or disease. It is a condition of the blood, and is caused by a variety of causes, such as overwork, mental strain, or disease.

THE LINGERIE BLOUSE WITH COLOR TOUCHES

IT IS a decided fact that a woman's interest in blouses never wanes. Perhaps this is because designers are ever offering something new. This season a cheerful note has been sounded—that of vivid coloring. The wildest combinations are seen, and yet the result is harmonious.

The blouse made along plain lines is an example of the unusual color combination. The blouse itself is of orange handkerchief linen, while the collar and lower section of the cuffs are of lavender linen. By the way, handkerchief linen is quite a favorite material for lingerie blouses, and it is offered in plain colors, stripes and checks.

Since stripes bid fair to be well-liked this season, it behooves the stylishly-dressed woman to include one striped blouse in her wardrobe. A pink-and-white candy stripe, like the one shown, is very stunning. The pique collar and cuffs add to its immaculate pink-and-whiteness.

The white blouse showing green linen piping along the tucks on the front and sleeves would be charming to wear with a green coat suit. The odd use of green linen on the collar adds character to the model. The buttons and buttonholes are merely decorative and are not intended to be useful.

Here you are, girls, if you're looking for a mannish type of blouse. The one with the shirt-front effect is just the thing. However, the blue-and-white combination reserves a feminine touch of daintiness. The blue part of the blouse is of marquisette—a material which has been restored to popularity. The tucked neck and the collar are of fine white handkerchief linen. White crochet buttons ornament the front pleat and hold down the tucks taken in the sleeve to form a fitted-cuff effect. Hemstitching has been used to good advantage to trim the blouse.

There has been a revival of hand embroidery on blouses. The application of the handwork is more artistically applied than heretofore. On the blouse of sheer white lawn eyelets and solid stitches are used to bring out the beauty of the sprays on either side of the front pleat. Old-rose marquisette has been used to trim the collar and cuffs. It also forms a background for the white buttons.

Don't lose sight of the fact that all of these blouses except one feature low collars. This note will be appreciated more highly as the warm weather advances.

The BLAINE DRUG & BOOK Co
BOW ISLAND and WINNFRED.

W.C.T.U.

The district convention of the W. C. T. U. will be held in Lethbridge on May 24, 25 and 26. The meetings will be held in the Christian church, Third Ave. May 24 will perhaps be the most important day of the convention as meetings will be held all day and a public meeting in the evening. The provincial president, Mrs. McKinnon, of Carleton Place, will be present, and the officers of the district include vice-president Mrs. H. H. Sands, of Medicine Hat; corresponding secretary, Miss M. Carson, of Whittier, recording secretary, Mrs. M. Hill, of Macleod, and treasurer, Mrs. McWilliams, of Bow Island.

Control of Cut-worms.

Farmers in the prairie country are familiar with the enormous as well as to spawning eggs. In 1912 upwinds of 25,000 acres of crops were destroyed in one district, and as a result it was decided by the Department of Agriculture, Ottawa, to investigate the species of cutworms responsible for the damage and the most satisfactory method of control under western conditions. The results of these investigations are now published in the form of a circular which has just been issued under the direction of Hon. Martin Burrell. The information is based on a close study of the question by E. H. Strickland, M. St. Field Officer, who has conducted his experiments at the Experimental Farm, Lethbridge, and should be very valuable to farmers who have trouble with this pest.

The eggs from which the enormous hatch are laid by a moth, or, as it is commonly called, a "milker," in August and September. Most of the eggs remain inactive underground, and hatch out about the middle of April. From then till the middle of June the cutworms feed extensively upon all classes of crops. The cutworms get in their infamous work at night, remaining below the ground during the day.

The locations selected by the moths, for egg laying are mostly sunny, dry, lawns, particularly those with a rough surface. Among the measures of prevention are advised the keeping of summer fallow absolutely clear of all green growth, from August 1st to September 25th, and the land should be worked freely. Methods of poisoning and other treatments are given in the circular, which all crop growers should read.

PANTRY SALE.

The Ladies Aid of the Methodist Church will hold a Pantry sale in the Murray Building on Saturday afternoon, May 6th. Cakes, Pies, Cookies, Cough and buns.

Local & General

Miss Lucille Fuller is visiting friends in Calgary.

F. W. Brown has purchased from Wilmot and Henderson a Chevrolet car.

A few showers of rain, mingled with a little snow, visited this district this week.

J. K. Shearer has left the post-office with the intention of residing upon his farm for the summer.

Mrs. Harst and her daughter Velva has been visiting her parents, Mr. and Mrs. J. W. Hurd, the past week.

Service will be held at All Saints Church on Sunday morning next at eleven o'clock, at which the Rev. G. Herring will officiate.

The farmers and business men along the Waybina line are petitioning the C.P.R. for a twice-a-week passenger and freight service.

Saturday next, May 6th, is Farmers' Auction day in Bow Island. We are informed that a large number of articles will be offered for sale.

Mr. Paterson, principal, and Miss Veale and Miss McColl, teachers at the public school, attended the teachers' convention at Edmonton last week.

The rebellion in Ireland is now reported to be completely crushed. An old country cable on Wednesday states that three of the ring leaders have been shot and that a large number of rebels have been arrested and taken to England.

A letter was received this week from Steve Nikolas, in which the writer mentions that he saw a nice place at Spokane, Wash. Inquiring as to the price he was informed that it ran from \$100 per acre up. Steve considers he can do better than that in raising wheat at Bow Island.

A great deal of sympathy has been expressed the past week to Mr. and Mrs. A. Rolfe in the loss of their twin babies, one of which died on Sunday and the other on the succeeding day. The funeral, which took place on Tuesday morning, was attended by a large number of friends.

Wilmot & Henderson report a steady and insistent demand for the Chevrolet car, but so great is the call for it that considerable difficulty has been experienced in getting sufficient cars to meet the demand. They have, however, sent in a "hurry-up" order and expect several in very shortly.

A. F. Werts sat in state in the Council Chamber on Thursday receiving numerous congratulations from his friends on having attained the anniversary of his fiftieth birthday. A bucket of water thoughtfully provided by the host received ample and generous attention at the hands of his many guests.

M. T. Murphy, in company of his son William, left Wednesday night on a visit to friends in the east. As an old-timer, and incidentally, as one of the most progressive farmers in the district, we feel sure that our old friend has thoroughly earned his holiday, and we therefore wish him all kinds of enjoyment.

H. A. Shepherd, of the north-east of 14-10-10, has been engaged during the past week in transferring from his farm a large number of trees and dispossessing of them to the residents in town. F. W. Brown has planted 35, W. J. Oliver six, R. A. S. MacLaren 18, J. W. Hurd 10, H. E. Beattie 10, and several others have put in from two to three apiece. The trees are in excellent condition, most of them measuring from 10 to 18 feet in height, and within a couple of years will add beauty to the town and increase of the town considerably.

JUST THE THING?

As we announced a short time ago, orders had been placed for a very large consignment of PRINTS, GINGHAMS, CALICOES, etc., and we now have much pleasure in announcing the arrival of these goods. Their quality, price, and all-round excellence, we feel we can safely leave to the capable judgment of our patrons, merely contenting ourselves with the statement that these goods are the very best obtainable, and that we have been exceedingly lucky in securing them.

SYNOPSIS OF CANADIAN NORTH WEST LAND REGULATIONS.

1. Any male over 18 years old, may homestead a quarter-section of available Dominion land, in Manitoba, Saskatchewan or Alberta. Applicant must be a person at the Dominion Land Agency or Sub-Agency for the District. Entry by proxy may be made at any Dominion Land Agency (but not sub-agency, on certain conditions).

2. Entry - Six months residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required except where residence is performed in the vicinity.

3. In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price \$3.00 per acre.

4. Entry - Six months residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required except where residence is performed in the vicinity.

5. A settler who has exhausted his homestead right may take a purchase homestead in certain districts. Price \$3.00 per acre. Entry - Must make six months residence on three years, cultivate 50 acres and erect a house worth \$200.

The area of cultivation is subject to deduction in case of rough, scrubby or stony land.

Life stock may be substituted for cultivation under certain conditions.

W. W. CORY, C.M.A., Deputy of the Minister of the Interior.
